Wage hike, lower VAT considered

P-Noy eyes measures to cope with high prices

By Bernard A. Dela Cruz

A WAGE INCREASE, price controls and a reduction in the 12 percent value-added tax (VAT) to goods and services are among the measures that President Benigno Aquino III is considering to help people cope with soaring oil prices, food costs, taxes and inflation.

The president said he had requested the economic secretary to study the issue of a VAT cut. He also said he was considering a wage hike for public employees.

President Aquino said that the measures were necessary to help people cope with the rising cost of living.

Globe Asiatique used 'Ponzi' scam—Pag-Ibig

MANILA—Globe Asiatique Inc. has been found to have used a Ponzi scheme to defraud investors, Pag-Ibig said. The company, which was founded in 2007, was accused of using the money of its investors to pay returns to other investors, a classic Ponzi scheme. Pag-Ibig said it had filed a complaint with the Securities and Exchange Commission (SEC) and the Department of Justice (DOJ) to investigate the matter. The company's CEO, Joseph Tan, was also named in the complaint.

Pag-Ibig said it had received reports from investors that they were not receiving their returns. The company had been operating for about a year before the complaint was filed. Pag-Ibig said it had been investigating the matter for several months and had found evidence of the Ponzi scheme. Aquino wants judges' fund deposited in nat'l treasury

MANILA—President Benigno Aquino III wants the fund for the salaries and allowances of judges to be deposited in the national treasury, instead of the Department of Justice (DOJ). Aquino said he had asked the DOJ to transfer the fund to the treasury, but they had refused. He said he was now asking the DOJ to do so again. The fund is currently deposited in the DOJ's account. Aquino said he was concerned that the fund might be misused. He said he wanted to ensure that the fund was used for its intended purpose.

The DOJ has refused to transfer the fund to the treasury. It said the fund was part of its budget and that it was responsible for its management. The DOJ said it had been managing the fund for many years and that it was doing so responsibly. It said it was not willing to transfer the fund to the treasury. Aquino said he was disappointed by the DOJ's refusal. He said he was now asking the DOJ to do so again. He said he was determined to ensure that the fund was used for its intended purpose.

SC cites Comelec for contempt over Guardians' delisting

MANILA—The Supreme Court (SC) has cited the Commission on Elections (Comelec) for contempt for failing to comply with its order to delist the Guardians of the Temple. The SC said it had issued the order in 2009, but Comelec had failed to do so. The SC said it was now citing Comelec for contempt. The Guardians of the Temple is a religious group that has been accused of various crimes. The SC said it had been investigating the group for several years and had found evidence of its activities. The SC said it was now citing Comelec for contempt for failing to comply with its order to delist the group.

Comelec has refused to delist the Guardians of the Temple. It said the group was a legitimate religious organization and that it was not subject to delisting. Comelec said it had been following the SC's order and that it was doing so responsibly. It said it was not willing to delist the group. The SC said it was disappointed by Comelec's refusal. It said it was now citing Comelec for contempt. The SC said it was determined to ensure that the Guardians of the Temple was delisted.

Figure 1 is a 3D surface plot showing the relationship between the number of eggs (N) and the number of eggs per female (E) for the species *D. dentatus*, *D. dentatus*, and *D. dentatus*. The plot shows a peak in egg production at intermediate values of N and E.

PH Open opens sans two icons

By Mary Joannoy Reyes

Little did all the people who had made it to the PH Open know that the two icons who were supposed to be the main attraction of the tournament would not be there.

PH Open

The PH Open tennis tournament, which was supposed to be the main attraction of the tournament, was held at the Philippine Sports Complex in Alabang, Muntinlupa. The tournament was held from June 1 to June 3, 2011.

Figure 1 is a schematic representation of the experimental design. It shows a sequence of events: 'Stimulus', 'Response', 'Feedback', and 'Next trial'. Arrows indicate the flow from Stimulus to Response, Response to Feedback, and Feedback to Next trial. A 'Time' axis is shown at the bottom, with markers for 'Stimulus', 'Response', 'Feedback', and 'Next trial'.

Sex trial could end Italian PM Berlusconi's political career

Italy's justice minister said Tuesday that the government will not drop charges against Prime Minister Silvio Berlusconi in a sex trial that could end his political career. The minister said the government will not drop the charges, which could lead to Berlusconi's conviction and removal from office.

The trial, which began in January, involves allegations of a sex scandal that erupted in 2011. Berlusconi's political future is in jeopardy as the trial progresses. The government's decision to keep the charges is seen as a move to ensure a fair trial.

US budget talks fail, gov't shutdown likely

U.S. House Speaker Nancy Pelosi said Tuesday that the House will not pass a budget deal that would allow the government to remain open. This move increases the likelihood of a government shutdown. The talks between the House and the Senate have failed to reach a consensus.

Ecuador expels American envoy in WikiLeaks flap

Ecuador's foreign minister said Tuesday that the country will expel the American ambassador in response to the WikiLeaks flap. The expulsion is a significant diplomatic move, reflecting the tensions between the two countries over the release of classified documents.

Figure 1 shows a 2D hexagonal lattice structure. The lattice is composed of hexagons, each with a central dot. The dots are arranged in a triangular pattern. The lattice is divided into two regions by a vertical line. The left region is labeled 'A' and the right region is labeled 'B'. The dots in region A are labeled 'A1, A2, A3, A4, A5, A6, A7, A8, A9, A10, A11, A12, A13, A14, A15, A16, A17, A18, A19, A20, A21, A22, A23, A24, A25, A26, A27, A28, A29, A30, A31, A32, A33, A34, A35, A36, A37, A38, A39, A40, A41, A42, A43, A44, A45, A46, A47, A48, A49, A50, A51, A52, A53, A54, A55, A56, A57, A58, A59, A60, A61, A62, A63, A64, A65, A66, A67, A68, A69, A70, A71, A72, A73, A74, A75, A76, A77, A78, A79, A80, A81, A82, A83, A84, A85, A86, A87, A88, A89, A90, A91, A92, A93, A94, A95, A96, A97, A98, A99, A100'. The dots in region B are labeled 'B1, B2, B3, B4, B5, B6, B7, B8, B9, B10, B11, B12, B13, B14, B15, B16, B17, B18, B19, B20, B21, B22, B23, B24, B25, B26, B27, B28, B29, B30, B31, B32, B33, B34, B35, B36, B37, B38, B39, B40, B41, B42, B43, B44, B45, B46, B47, B48, B49, B50, B51, B52, B53, B54, B55, B56, B57, B58, B59, B60, B61, B62, B63, B64, B65, B66, B67, B68, B69, B70, B71, B72, B73, B74, B75, B76, B77, B78, B79, B80, B81, B82, B83, B84, B85, B86, B87, B88, B89, B90, B91, B92, B93, B94, B95, B96, B97, B98, B99, B100'. The dots are labeled with their respective coordinates (x, y) in the top right corner of the lattice.

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group was exposed to the control condition, and the experimental group was exposed to the experimental condition. The control condition consisted of a baseline measurement, followed by a 10-minute rest period, and then a 10-minute measurement period. The experimental condition consisted of a baseline measurement, followed by a 10-minute rest period, and then a 10-minute measurement period. The subjects were exposed to the control condition and the experimental condition in a random order.

Figure 1 consists of four micrographs arranged in a 2x2 grid. The top row shows the control (no NaCl) and the bottom row shows the NaCl-treated plate. The left column shows the control and the right column shows the NaCl-treated plate. The NaCl-treated plate shows a clear zone of inhibition of growth.

Figure 1: Schematic representation of the experimental design. The diagram shows a sequence of events: 'Stimulus' (a box with a question mark), 'Response' (a box with a question mark), 'Feedback' (a box with a question mark), and 'Outcome' (a box with a question mark). Arrows indicate the flow from Stimulus to Response, Response to Feedback, and Feedback to Outcome. A feedback loop arrow connects Outcome back to Stimulus. The entire process is labeled 'Trial'.

Large Player in Game

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group (CG) and the experimental group (EG). The CG was divided into two subgroups: the control group (CG) and the control group (CG). The EG was divided into two subgroups: the experimental group (EG) and the experimental group (EG). The CG and EG were compared for the effect of the intervention on the outcome variable.
